BIO:

James has been creating artwork depicting flora, fauna and wild habitats of Maine & New England for almost 30 years. Having worked in the fields of research science, conservation and education and walking trails signs at Laudholm Farm in Wells.

He recently wrote & illustrated *Mushrooms of Maine*, a journal on wild mushrooms. Available for purchase at Eldredge Sanford location. James has lived in Japan with his family for 10 years where he worked in education in different capacities including teaching English, Science and visual art. In addition to creating artwork & writing, James likes to forage wild food and grow edible mushrooms outdoors. He lives with his family in Alfred.

For information on commissioned artwork or prints,
